Course Title: Wet Lay-Up Laminating

Course Code: DMSC51

Course Fees: £1,150.00 course fee plus £230.00 UK VAT (£1,380.00 per delegate)

Structure: 30% theory, 70% practical, 12 delegates maximum, no experience required

Summary

Wet lay-up is the most widely used laminating process. We use a structured approach to train delegates to produce quality parts consistently. Using controlled processing, delegates reduce wastage and generated fumes to comply with new emissions laws. Working with a large range of materials, tools and laminating techniques, delegates will gain a level of practical competence during the course.

This course is suitable for the full training of wet lay-up laminators, as well as engineers who need a complete understanding of the process and design aspects of this laminating technique.
