Course Title: Composites for Engineers & Designers, Stage 2 - Advanced Design

Course Code: DMSC62

Course Fees: £1,250.00 course fee plus £250.00 UK VAT (£1,500.00 per delegate)

Structure: 25% theory, 75% practical, 12 delegates maximum

Pre-requisite: Prior completion of DMSC61

Summary

This course picks up from where our stage 1 engineers and designers course ended. We address the intricate detailing of both laminate and tooling design through a structured problem solving approach discussing real problems and possible solutions. The course is a bridge between production and design to aid communication between departments. It was originally designed to support training for CAE tools such as Fibresim, as many companies and personnel had access to the tools but did not use them effectively.

Course Content

	09:00 – 11:00	11:15 – 13:15	13:45 – 15:45	16:00 – 18:00
Monday	<u>Introduction</u> <u>Equipment issue</u> <u>Theory & Demos</u> Refresh of composite theory, pre-preg materials & processes	<u>Theory & Discussion</u> Orientation standards, part & mould side definitions & handing issues Balanced & unbalanced laminates Distortion & springback	<u>Practical & Discussion</u> Design a range of laminates using various materials to address balanced, unbalanced, semi-isotropic, distorted, undistorted, springback & handed issues	<u>Guided Practical</u> Laminate materials to the designs completed Identify further problems due to material application Vacuum bag & cure parts
Tuesday	<u>Theory & Discussion</u> Ply datums & placement Draping, distortion, deviation & sequences Joins, splices, darts, discontinuities & sequences Production of lay-up manuals	<u>Practical</u> Design of laminates over a range of shapes/features to address datums, placement, draping, distortion, deviation, joins, darts, discontinuities, & laminate sequence issues	<u>Discussion</u> Review of laminate designs and potential issues <u>Practical</u> Prepare material plies to the laminate designs completed	<u>Guided Practical</u> Laminate materials to the designs completed Identify, record & solve problems encountered due to material application Vacuum bag & cure parts
Wednesday	<u>Theory & Discussion</u> Metal verses composite tooling & thermal expansion issues Tooling & component features & design principles Tiled and templated laminating methods for composite tooling	<u>Demo & Practical</u> Preparation of patterns including fitting split/joint boards, shaped locators & releasing Lamination of a mould tool using tiled, orientated and balanced plies and vacuum de-bulks	<u>Practical</u> Design of a range of composite mould tooling over a range of shapes/features to address both laminate and production process requirements	<u>Discussion</u> Review of mould tooling designs in relation to laminate and production requirements and potential issues
Thursday	<u>Theory & Discussion</u> Structural laminate & ply loading requirements Consideration shape, joins, inserts and fixings	<u>Practical</u> Complete simple indicative calculations to establish initial processes, materials, insert design and structural laminate requirements	<u>Discussion</u> Review of calculations completed and initial laminate designs and potential issues	<u>Practical</u> Design of mould split lines, laminate & ply sequence to meet structural requirements Compilation of lay-up manual to produce the structural parts
Friday	<u>Discussion</u> Review of designs to meet structural requirements and potential issues	<u>Guided Practical</u> Full material preparation & application for structural parts, vacuum bag & cure as required Modification of lay-up manual as required	<u>Practical & Discussion</u> Breakout all parts made Full review of all parts made, identifying unexpected issues and solutions	<u>Written Test</u> <u>Reinstate Workshop</u> <u>Equipment return</u> <u>Summary / Feedback</u>

Composite Course Schedule 2019-20

We provide the most comprehensive range of composite training courses available. Delegates regularly attend our courses from all industry sectors worldwide which are suitable for individuals and small companies through to tier one suppliers and OEMs.

We are continually involved in training industry personnel for the next generation of composite parts. Our courses are recognised as demanding, rewarding and representative of current best practice and processes and are continually updated. Our tutors are industry experts and our facilities set the standards for best practice and are specifically designed for delivery of composite training courses.

Composite Course Information

Entry Requirements

No qualifications or previous experience is required unless otherwise stated on the specific course information sheet. If you are unsure please contact us.

Enrolments

- Enrolments are taken on a first come, first served basis. We require either an on-line booking or a completed enrolment form and full payment.
- On receipt of your booking/enrolment form, we will process your payment if there are places available on the course and issue a full course confirmation.
- If the course is full, your payment will not be processed and you will be advised accordingly.
- Please note that we do not take provisional bookings or hold any places. Course confirmations are only sent if places are available and full payment has been received into our account.

Payment

We accept the following forms of payment and can provide companies with pro-forma invoices where required:

- Credit and Debit cards including Mastercard, Visa, Maestro, Solo and American Express
- Personal or Company cheques payable to 'Dark Matter Composites Ltd'
- Paypal
- BACS, CHAPS or IBAN bank transfers

Course Fees

- The fees are stated on the individual course information sheets and are per delegate per course.
- Course fees stated are in pounds sterling and are subject to UK VAT at the current rate (20%).
- EU companies can reclaim VAT through their local VAT system. Non EU delegates cannot reclaim the VAT as the course is a service provided in the UK and not an exported product.
- The fees stated are valid until 31st December 2019.
- All fees stated include: provision of all materials, tools, equipment and protective clothing (except footwear, see below); lunch, tea & coffee for each day of the course; and course handouts.
- All course fees must be paid prior to the start of the course.
- Items produced by delegates can be taken away at the end of the course.

Location

Our courses are run at our dedicated training facilities in Redbourn, Hertfordshire, United Kingdom. We are close to London with good travel links to Central London and all London Airports, with London Luton Airport just 8 miles away. There are good transport links to the M1/M25 motorways and train links at the local towns of Hemel Hempstead, St Albans, Harpenden and Luton.

Times & Attendance

Each day starts promptly at 9am and finishes at approximately 6pm, Monday to Friday.

Clothing, tools and equipment

- Delegates must wear full-length trousers and closed leather shoes or safety boots (no trainers) during the course.
- All other tools, equipment and personal protective equipment are included in the course fee.

Course Assessment

Assessment activities are built into our courses, to give feedback on the achievement and potential of delegates. Delegates are assessed on their attendance, quality of practical work completed and a written test. Assessment marks are printed on the course certificates and kept on record.

Exclusions

Travel, accommodation and general sustenance expenses incurred by delegates are excluded from the course prices (except where otherwise stated).

Accommodation

Please note that we have an accommodation list that is available on our website or upon request.
